Dubai's Most Trusted Safe Deposit Box Centres

THE AUTOMATED INSURED SAFE DEPOSIT BOX SERVICE

MySafe is an automated insured personal Safe Deposit box service that operates to the highest possible Global Standards.

MySafe UAE, is a World's First that has revolutionized the Safe Deposit Box industry. Using advanced Safe robotics, it is fully automated & insured, offering premium protection of clients' valuables in convenient safe deposit box centers.

MySafe Global Vaults is a leading member of the prestigious Safe Deposit Federation, recognized world-wide as a world's first that has revolutionized the industry.

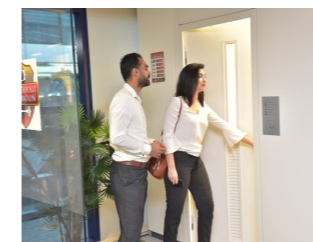

Overall Context

Banks across the world have different views on the concept of Safe Deposit Boxes. Most view the service as a loss leader and frankly a service they might feel obliged to provide but strategically, perhaps they would rather not.

In some markets the Banks have withdrawn from the service completely, in other markets, those who provide the service do so reluctantly and there are long waiting lists for clients to secure a safe deposit box service.

In the UAE, an estimated 5,000 eligible Banking Customer can wait many years to secure rental of a Safe Deposit Box.

We rolled out 3 major sites across Dubai; **DMCC Jumeirah Lake Towers Cluster I, DMCC Jumeirah Lake Towers Cluster M, Platinum Tower Palm Jumeirah in the lobby of Kempinski Hotel and The Dubai International Airport Freezone (DAFZA)**. We now avail a Global Standard Safe Deposit Box Rental service to residents and non- residents.

About MySafe Global Vaults

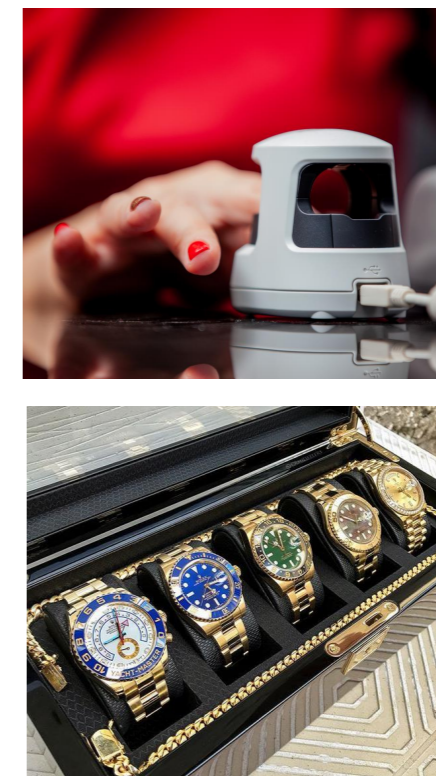

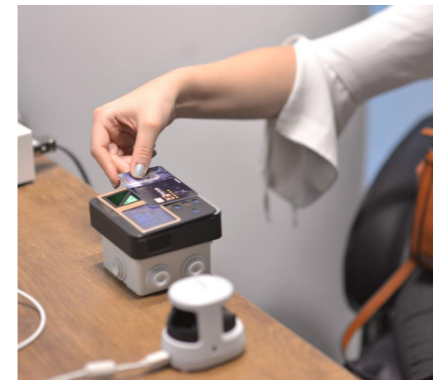

MySafe is the only private safe deposit box company in the Middle East and Africa to offer a fully automated service. As leading members of the prestigious global Safe Deposit Federation, we offer a 21st century safe deposit box rental service.

We have multiple sites in some of the most prestigious locations in the UAE; (DMCC Jumeriah Lake Towers, Platinum Tower; Palm Jumeriah, in the lobby of Kempinski Hotel, and the Dubai International Airport Freezone). We are proud to bring this revolutionary concept to Africa and chose Nairobi as our inaugural African center.

We offer all clients total privacy and bring peace of mind by developing the most advanced security infrastructure of its kind in the world. There is a reason why MySafe is also the only safe deposit box company in the UAE to offer all clients the option to insure the contents of their box with Lloyds of London, the largest insurance market in the world.

Using advanced safe robotics and a fully integrated privacy pod, we lift the safe deposit box into the 21st century. Integrated technology means that to access your box, you need a bank standard swipe card, a 4 Digit pin code, a bio-Metric Vein verification reader and you are the only individual with a key to that box. Unlike traditional safe deposit box centers, you will not see any 'wall of boxes', instead all our safe deposit boxes are located inside a customized automated safe described as the most advanced vault of its kind in the world. The advanced robotics delivers the box to its registered owner in less than ten seconds.

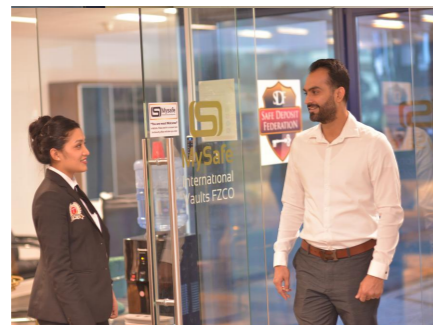

Kempinski Hotel & Residences Palm Jumeirah – Lobby

Why Mysafe Dubai

Our Safe Deposit Centers are secured using the latest security and robotic echnology. The security features include but are not limited to: Robust Biometric Technology, RVM CCTV, “bank standard” encrypted access cards and more to provide you with complete peace of mind. What does that mean to you? It means all your personal belongings are secured using state of the art security features, providing you with premium protection.

In addition o being serious about security, we are keen to offering you a professional yet friendly, customized service. We created an automated concept to ensure absolute discretion, de eloped the concept so the service can be delivered at locations onvenient to you and we incorporated premium Insurance to provide you with complete Peace of Mind. MySafe Vaults remains the Most Trusted Safe Deposit Box Brand, Globally.

Global First

MySafe is built on proven advanced safe robotics deployed across some of the world’s largest banks over the past decade. With strategic suppliers such as Chubb, Al Nabooda and the largest specialized Insurance Market in the world, we create a world’s first “convenient” Safe storage facility for small items of personal or corporate value.

Automatic nsurance Cover

Each MySafe Box is automatically insured to the value of 80,000 AED and underpinned by the largest Insurance Market in the world. Clients can choose to increase that level of cover to a maximum of 1 Million AED per box on request. Contents are NOT disclosed. Individual Insurance certificates are issued for each box.

Fully Automated and Different Sizes

Unlike traditional “Vaults” where management retain one set of keys and you keep a second set, MySafe is fully automated and discrete. You alone control access to the Privacy Pod and to your personal Safe deposit Box. You conduct your business in total privacy. All Box’s are slightly wider and Longer than an A4 Sheet of paper and we offer 4 different depths 45 mm, 70mm, 120mm and 170mm

Security Standards

Unlike “Traditional” Safe deposit Box facilities, we utilize multiple layers of security to include Bank Standard swipe card, 4- digit Pin Code, advances Bio-metric readers and your own personal key. We operate to SIRA standards and our security features are monitored directly by the Dubai Police service.

Personal and Convenient

Our goal is to make it personal, convenient and accessible to all. We are open 24 hours a day, staffed 24/7 and despite being fully automated service, we are there to offer support if required. At all times management will work to ensure you “experience” that personal touch but we are also conscious sometimes “less is moe”

Easy to Register

All you need is a copy of your Emirate ID OR a copy of your passport. The service is available to residents and Non- Residents alike. The registration takes ten minutes and the Box is available immediately. There is No Deposit and No registration fee. Given demand, we actively encourage clients to book a minimum of 6 months and annual rental is also available. You can pay Cash or Credit card. To register, please come before 7pm any day.

Safe Box Sizes

Corporate & Individual Bookings

All the Boxes in MySafe Kenya Vaults are much wider and longer than an A4 sheet of paper and are available in 4 different depths; 45mm, 70 mm, 120 mm & 170 mm.

Per Annum 8,700 AED
Includes VAT & Insurance

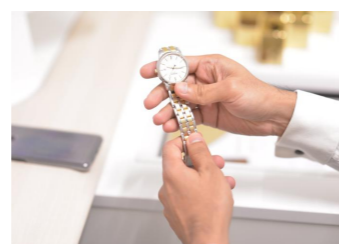

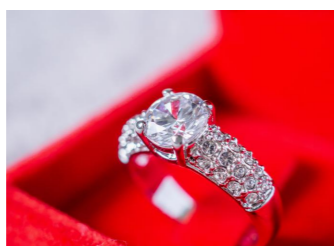

Global Standards

MySafe Global Vaults is a leading member of the prestigious Safe Deposit Federation, recognized world-wide as a world's first that has revolutioned the industry. MySafe is a concept built using proven technology deployed across some of the world's largest Banks for the past Decade.

Using the latest in robotic technology manufactured by the global market leader is safe

automation and integrating customized security and Insurance protocols, we bring to the Kenyan market a "Worlds first"- A convenient, Discreet, Automated, Insured, Safe Deposit Box service.

The concept reflects Global Standards such that one of the most renowned Insurance markets in the world underpins the provision of automatic Insurance cover on every individual Safe Deposit Box.

Insurance

The advanced security features and advanced robotics create standards of security that allow us to insure the contents of every single safe deposit box at whatever lever of insurance cover you need. This Policy is an "All Risks" Policy and the insurance cover is underwritten by one of the largest Insurance markets in the world.

In circumstances where you wish to INCREASE the insurance cover available, you can do so by simply requesting additional over from management, pay the additional pemium and your cover is increased.

There is no requirement to declare individual Items or substanti te your reasons ffor additionalover. That is an issue for you alone, it is private Information, all ou simply need to do is state your requirement and management can increase cover to a maximum of 1,000,000 AED on any one Box.
